Tao produces One, One (oneness) produces two (Ying and Yang), two produces three (space, Earth, and humans), Three produces everything in the Universe

- Tao Te Ching, Chapter 42

Taoist symbol, Taijitu, represents Tao. There are three major characters of Tao. 1) Evolution/Changing: Things in the universe are constantly changing, harmony is eternal. Harmony here means equilibrium.]

2) Relativity/Unity: Two sides of things (Ying and Yang, e.g. good and bad) depend on each other, and are united in one. There isn't good without bad. 3) Extremes meet: when things reach one extreme, they bounce back to the other extreme. The three views are described in Taijitu: the symbol appears to be rotating; it is the constant interplay and unity of two opposite forces; the small dots inside each force are seeds of opposite

12:58am Branching merging & evolution of humans: Taoism is not just Chinese culture. It's a preserved line of culture of common human ancestors

1:08am Many traditional/ancient societies around world share basic philosophies. They didn't create the philosophies, but got from common ancestors

1:19am Thinking about aliens in space is cool.But can u c that there r 'aliens' on this planet: plants and other animals. Can u c they r people 2?

1:22am Unlike the philosophy of some animal rights organisations/people, Taoist vegetarianism does not deny the sentience of plants.

3:11am Fruits in genus prunus (plums, peaches etc) and citrus (oranges etc) are delicious & nutritious. They are also good for home-made skin care

3:12am @theeltjv2 You are welcome. We can learn & grow together. There is no authority in Taoism

2:31pm RT @FestivalAsiaUK: Invite Asian related religious & spiritual institution joining in <http://t.co/snUQICQ20t> @Shinto_tan @shintoudaichi @Ta...

5:23pm A hierarchical system only can maintain its shape when population size is small. Large population links to decentralization of the structure

5:47pm Good taste was evolved to be an indicator of good nutrition. But food additives nowadays abused the evolutionary function. Eat naturally.

10:20pm Misconception of Taoist texts: Many think Tao Te Ching (400BC) is the 'bible'. But I-Ching (from prehistory) may enjoy more respect in Asia

1:27am Pride and prejudice are typical hierarchical behaviours. They are incompatible with Taoism.

2:18am Free/cheap things are low in quality is not always true. People may offer good things free/cheap because they are not selfish. Think.

2:21am Expensive things are not necessary good for you. Very often people bought is the illusion of ego. Open source software are often free & great

2:25am Big brands are territorial marks of people/groups. Selfish/territorial behaviour are linked to branding. Why we judge products by the marks?

2:45am Equivalent of brands in the world of other animals: pee marks and poop marks. Sorry for ruining good image of branding

2:49am Among the popular operating systems. Ubuntu/Linux is Taoist: It's open source and free. Highly recommended.

2:51am In an ideal society. People help others without expecting returns.

2:58am @bouquetf We are aware that open source is not always free. Your definition of free software is not universal. There are many kinds of free.

3:16am Main stream health information of daily limits of salt intake is bad science. It should consider water intake, the concentration

Thu Feb 5

5:03pm Real Taoists don't have fear of death. Be 1 with Tao (moral/truth) is more important than being alive. The anxiety of death shortens lifespan

5:16pm Taoism respects orders of nature, the circle of life, saying sages are immortal, means they created great cultural legacy for future people

5:20pm In Taoism, U r not only the physical body. U r an energy cluster. U cultures are also part of you. Cultures can pass down and be immortal

5:36pm The cruel emperor 'Qin Shi Huang', who is famous for requesting immortality hard from the Taoists, did not live long <http://t.co/mQYbuPX43Q>

6:07pm Saving is encouraged in Taoism. Research home brand products from supermarkets, buy other things on Ebay. It will save you a lot.

6:14pm Taoist saving in Australia: @amaysimAU @Penny_Tel can help you save a lot of your telecommunication (mobile) bills

11:59pm Selfishness is a general attitude: the kind of people often don't look after their own body parts/family members/other ethnic group/animals

4:20pm Strong fear of death(insecurity) is associated with selfish/quick-gain/hierarchical/territorial behaviours. Not inline with peaceful Taoism.

4:52pm 'Death in Classical Daoist Thought' <https://t.co/Tezz1ep6TP> see section 'Death', #Zhuangzi (Taoist sage/text author) indifferent to death

7:06pm Judging the living of tropical region by the monetary standard in the colder region is a mistake. People can live on \$2 a day in hotter place

7:07pm Tropical region has many resource that is not usually measured by monetary system: solar energy, warmer temperatures, biodiversity...

7:13pm The degree of participating to the monetary system is negatively associated with local solar power/resources/temperature.

7:15pm The emphasis of monetary system suggests perceived limitation of resources. People rich in resources do not care much about money.

7:20pm People who are immoral or loving money, in fact, think themselves are poor (of resources, even they may not be aware)

7:32pm Don't conclude the living standard is low if you see skinny Africans. You don't need that much body fat to keep body temperature there.

9:39pm Directional thinking(things can go better/evolve to one direction always)is not Taoist.The universe is 'rotatory','repetition' is nature

9:47pm The major Taoist principle, extremes meet, is the projection/shadow/aspect of a rotation of a higher dimension.

10:33pm Real Taoists are good at summarize things. Tao/Taojitu is the ultimate summary of the universe <http://t.co/fMuslHCfeU>

Wed Feb 11

4:29pm One hidden/unconscious reason of being clean is not allowing other life forms (insects, bacteria, fungus, virus etc.) sharing my territory

4:37pm Microorganisms aren't evil, Like it or not, human body is a forest of microorganism. They are everywhere, They live inside of the our cells.

4:40pm Taoist view of being clean is not completely removal micro-organism(we can't), but living in harmony with them.

4:42pm Cleanliness is often good for many reasons. But strong concern of cleanliness is associated with territorial behaviour and being controlling

4:49pm RT @maureencatlady: @TaoismNetwork @animalnetwork29 so true !!!

5:16pm I-Ching is about the physics of the universe <http://t.co/xqRQZgvjju> It predicts everything in the universe has Ying and Yang two states

5:19pm Time has Ying(future) and Yang(past), present is the harmony of the two.Our reality is the Yang world. Deceased people are in the Ying world

5:25pm In the context of Ying/Yang world of Taoism, death is not the end of the story. it is just end of the chapter(life in the Yang world).

5:36pm Ying world (阴间) and Yang world in Taoism are similar to parallel universe. The two worlds may in the same space but don't typically interact

4:10pm Living in harmony with nature: children grew up in 'dirtier' environment, for example having other animals at home, have stronger immune

4:24pm Often forgotten principle:Ying and Yang are relative to each other therefore exchangeable. You can name any one of the opposite states Yang.

4:26pm It's a convention that female,earth etc. are called Ying quality. You can call them Yang if you like, as long as you call the opposites Ying

4:39pm I-Ching sees everything in the universe a relationship(between two things).There are 64 kinds of basic relationship: <http://t.co/xqRQZgMUb2>

4:52pm 'Baryon asymmetry' can be explained by Ying/Yang world of Taoism(parallel universe):We (Yang world) don't observe Ying world(of antimatter)

4:59pm The original 'Ying world' in Taoism,is merely an emotionless opposite of 'Yang world'(we live in).But Buddhism linked it to hell & heaven

9:49pm Compassion is the Tao(rule). Plants are sentient. Eating seeds are less healthy than leaves and fruits, because seeds are babies of plants

9:53pm @dkraju We introduced this(unity) in the pinned tweet and FAQ a long time ago

10:36pm Taoism discourages dairy consumption. Milk is liquid meat,harms baby cows.Per capita consumption is low in China: <http://t.co/jZGJj9Z8Mt>

10:47pm @TonyFromSweden What matters is the balance of content. Seeds have things not so ideal.

Sat Feb 14

1:20am @TonyFromSweden common sense. Quick hint. Google wheat intolerance, gluten intolerance. coeliac disease etc.

1:31am @TonyFromSweden Examples of seeds are not the best food compare to leaves and fruits in general. Human are not evolved completely for it

1:33am @TonyFromSweden You misunderstood the original tweet. We are talking about compare to leaves & fruits in general. Diferent degree of healthy

1:37am @TonyFromSweden yes in general, but depends on situations, if someone is dying sick better not eat the babies. Leaves and fruits are better.

1:53am @TonyFromSweden parents are not good analogy of leaves & fruits. Originally the two parts evolved to be food of animals,the plants don't die

Sun Feb 15

4:20pm According to Ying/Yang theory of Taoism. Time should be cyclic too. Mainstream big bang theory is not compatible to it.

4:31pm I-Ching judges relationship by degree of Yang/power of the opposites.Majority vs minority(about 70% vs 30%)Yang is often good relationship

4:44pm Scientific point of view: I-Ching (from prehistory) is more important than Tao Te Ching. I-Ching is a quantitative book of math and physics.

4:45pm In I-Ching, when the Yang/power of two opposites are close, or one opposite is extreme, it often predicts major change/unrest/conflicts.

Fri Mar 6

8:10pm I-Ching is a binary system(Ying&Yang)from prehistory.Modern binary system uses symbols from decimal system, 0&1, that is often confusing

8:47pm In Taoism, every patient is different. The goal of treatment is not removing symptoms, but offer unique solution to sources(imbalance)

10:17pm Computer speaks binary like 01001...the translation in I-Ching binary is YingYangYingYingYang...0 refers to 1 of the 2 opposites,not nothing

11:46pm Science in Taoism: How I-Ching gives answers to the ultimate science/theory of the universe: <http://t.co/LAmehn14Ir>

11:55pm Standardization of treatment is not Taoist.We cannot classify diseases:same symptoms can come from different sources for different people

11:57pm In Taoism people should research the best treatment/care for themselves. Animal testing makes no sense:cruel & results unsuitable for humans

Sun Mar 8

1:22am Best natural health knowledge is the evolution of life.General principle: organisms live healthier in ways that evolved longer.Look back.

1:29am Importance of water:inside of human body is a simulation of earlier ocean (temperature , chemical composition etc). Humans are aquatic apes.

9:30pm Domination is dependency. Slave owners depends on slaves. Bosses depend on workers. Husbands depend on wives. Lions depend on sheep

9:32pm Domination is only a one side view of the kind of relationship. The other side of the view is dependency. Domination implies dependency.

8:54pm 'Mao is closer to Taoism but farther away from Confucianism' <http://t.co/c798J0Gmjn>

9:16pm Common Taoist phrase for the death of sages is 羽化 (the process larvae become insects). It means death is a transformation of the forms

Tue Mar 10

3:51pm Respect autonomy of other life forms is encouraged in Taoism. Pet keeping is therefore discouraged because it is linked to animal slavery.

5:15pm Urbanization is not Taoist.

Wed Mar 11

- 2:42am Public transport is more Taoist (saving and green/environmentalism are Taoist virtues) than private transport

Thu Mar 12

- 3:50am Taoist sage Zhuangzi lived around 4th century BC. He declined a king's offer of chancellor position in preference of Taoist lifestyle

3:55am Some schools of Taoism see Zhuangzi the best text of Taoism. Zhuangzi is rich in ecological thinking and very important to Taoist philosophy

4:09am It is said Zhuangzi thought working near kings is similar to being cattle:may be fed well, but cannot escape the fate of scarification

4:16am Zhuangzi believed the unity/harmony of humans and nature:humans are neither inferior nor superior than nature. We are nature.

6:51pm Atheism and morality: Genuine nice people don't need mighty Gods to force them being moral/compassionate. They are moral spontaneously.

10:07pm The 'tiger mom' stereotype isn't real. Many East Asian(Taoist nations)kids are naturally well-behaved without much hash discipline.

10:17pm Environmentalism is grand compassion:All our 'actions'(consumptions/developments) cost other lives.Live with gratitude.Minimise the damage

5:18pm @jeanjeanw5 In depth interpretation can be found in our FAQ of Taoism <http://t.co/fyn2Xl9uLi>

8:06pm Taoism emphasises empathy.Main text Zhuangzi moves between perspectives of many different life forms(human,other animal,tree,fugus etc.)

Sat Mar 14

12:42am Taoist health:Zhuangzi describes a fairy like person who doesn't eat seeds/cereals (leaves,fruits r ok),breath fresh air,drink dew(不食五谷 吸风饮露)

3:49am If you plan for long term (being Taoist),you live long. If you plan for short term(quick gain, immediate advantage) you live short.Slow down

4:13am A:I can't empathize with other life forms,they look so different from us. B:Study evolution, you will get it,the difference is superficial.

4:27am Taoist sages tend to be emotionless/peaceful. Because they understand how the universe works, so no much can surprise them.

9:50pm Feeling happy because u r young isn't wise.It implies unhappy when u gets old.Peace of mind lasts longer if u don't c being young is better

Mon Mar 16

1:19am Quoting famous people a lot is some kind of hierarchical behaviour. What matters is the message, not who says it. Avoid dogmas.

1:24am Privacy does not make much sense in Taoism: it implies blockages of the flow of information. Taoism loves connectivity(transparenty)

1:28am Often, good advice does not sound nice (harsh, critical). Good (herbal) medicine does not taste good (bitter)

4:59pm It's good to consider opinions of others. But be aware opinions of nice people are often under-represented because they are less outspoken.

5:00pm 'Go with the flow' in Taoism does not mean go with the propaganda of aggressive people. Go with the truth, the Tao: <http://t.co/fMuslHCfeU>

5:10pm Media opinion (including social media) is not public opinion. But opinion of social media is closer to public opinion than traditional media

5:46pm Chinese doesn't have tense for verbs. Because past, present, future are considered 'coexist' and 'always exist' in a higher dimensional world

6:10pm Tao of Taoism can be loosely translated into 'God' of monotheist religions <http://t.co/fMuslHCfeU> But Tao does not have any personhood

6:30pm Universal creation is not in time order that implies events before universe. Time is a part of the universe. There isn't time outside universe

6:59pm Taoist view of 'creation' is the universe, nothingness, presents itself in Ying-Yang pairs (diversity arises from recurrent Ying-Yang division)

7:21pm Taoist logic:0(nothingness,absence)is infinity(universe).Mind is 0 of the physical world.So mind(0)is the entire physical world(infinity)

4:04pm Study Taoism and Chinese language (at least reading) at the same time. We virtually didn't see any proper translated Taoist Text in English.

4:06pm Learn a new language makes you no longer blind to propagandas/misunderstanding against the culture from your own culture.

4:12pm [No Worship of Texts] Taoism is not only described in the main texts. It's also shaped by ancient Chinese literature of all subjects

4:23pm The lesser you assume, the wiser you are. When all assumptions were removed (seeing the universe as nothingness), you are one with the Tao.

4:52pm It is often said that people cannot describe Tao (in accuracy). One reason is the ability of natural language in delivering meaning is limit

4:57pm Many literatures help people understanding Tao (such as Tao Te Ching). Some describe Tao better than others. We describe Tao by science.

5:10pm Taoist texts were in ancient Chinese (<http://t.co/u1j4UJcHP5>). It's different from, but related to, current Chinese <http://t.co/coekeM87t9>

5:27pm Taoism is summary(increasing information density). Chinese language gets higher information density via tonality & pictographic characters

3:26pm Semi-aquatic history explains many things of humans, eg: high population density along the water (river, lake, coastal area) & why we love beaches

6:27pm Cheating in a relationship is seen very negative in Taoism.It's invasive, similar to taking a chair that is already taken in restaurants.

6:50pm In the Taoist community, people in relationships are often considered 'asexual' by outsiders. 'Asexual' is a positive word/quality here.

2:16pm #ChineseNewYear celebration does include animal food,as it is the coldest time of the year. It is originally a coping of uncommon condition

2:26pm Taoism is a culture of herbivores, common characters of herbivores: larger population, very social, low aggression, not self-centred...

2:35pm Bigu(辟谷)literately means 'no grains'. Common Chinese diets in the ancient time are almost vegan. So avoiding animal products is assumed.

4:06pm Veganism is very important in Taoism but ancient text don't mention it often. Because texts to herbivores don't need to say 'avoid meat'

4:12pm 2 sides of things(Yin&Yang)originate from each other. Defence evolves into celebration. Pride people are insecure.Taoists are humble&secure
